

Consider talking to us about your will

It is not uncommon for people to feel self-conscious talking about their generosity and plans. We respect your wish for discretion and privacy.

However, it is a great help for Hope Healthcare's long term planning to know that we are being supported through bequests. We would also like to let you know the benefits your bequest will bring and keep you informed on our work.

Our status as a charity

Hope Healthcare Limited, with registered offices at 97-115 River Road Greenwich, has Australian Tax Office endorsement as a deductible gift recipient under the terms of the Income Tax Assessment Act 1997, as a public benevolent institution.

We also hold endorsement from the ATO as an Income Tax Exempt Charity.

We hold Authority to Fundraise for charitable purposes under the NSW Charitable Fundraising Act 1991 (CFN14229).

Bringing hope to life for over 100 years

Helping people in need may be an essential part of your life.

Through a bequest in your will you can give tangible expression to this, ensuring the benevolent work you have supported through your life can continue to benefit people who need your help.

A not-for-profit provider of specialised public health and community services

Your bequest will continue to bring hope to life

Help us continue the vital work of Hope Healthcare

Hope Healthcare is dedicated to bringing hope to life ...

Hope Healthcare has a 100-year history of providing care reflecting the Christian values of unconditional love and compassion for every person.

We offer specialised palliative care for those dealing with progressive, incurable life threatening illness, aged care and rehabilitation for those recovering from traumatic illness or injury and mental health care for older people. Our delivery of services into the community and home includes case management of services for frail aged and other disabled people with complex high level care needs, all as part of a public health network in the north and southwest of Sydney.

Our services including Neringah and Greenwich Hospitals and Northern Beaches Palliative Care Service in Sydney's north and Braeside Hospital in Sydney's southwest, along with our community services, draw together a philosophy of care and expertise gathered in caring for the sick since 1907.

A bequest in your will lasts more than a lifetime

By leaving a bequest to Hope Healthcare in your will you become a partner in our life affirming work and your gift will offer a benefit that lasts longer than a lifetime.

Bringing hope to life for over 100 years

Making a will is the first step

Preparing a will isn't difficult. By making a will you can ensure that all your affairs will be settled exactly as you wish. You can change your will whenever you like and you should review your will every few years to ensure that it is still relevant. It is possible for you to prepare your own but we strongly recommend that you seek advice from a properly qualified legal advisor.

Making a bequest to Hope Healthcare in your will

A bequest may be worded to suit your own personal wishes. Ask your legal advisor about the variety of charitable bequests you can make. The following suggestions outline some of the common options that can be considered, however you should be guided by advice from your legal advisor.

Percentage

Leaving a proportion or percentage of your estate ensures that beneficiaries are not affected by the changes in the size of your estate or by inflation.

'I give to Hope Healthcare Limited % of my estate and I direct that the receipt from Hope Healthcare shall be sufficient discharge to my executor/s.'

A Specific Sum or property

A specific bequest of money is a simple one but it can be reduced in value over the years by inflation and it remains fixed despite any increase or change in the value of your estate.

'I give to Hope Healthcare Limited the sum of \$.... (or such other gift that you may wish) and I direct that the receipt from Hope Healthcare shall be sufficient discharge to my executor/s.'

The Residue

After providing for family and friends you may decide to leave the residue of your estate, or what is left, to Hope Healthcare.

'I give to Hope Healthcare Limited the residue of my estate and I direct that the receipt from Hope Healthcare shall be sufficient discharge to my executor/s.'

Additional special directions

You may have a reason to want your bequest to be used in a particular way or for a specific area of our work. Add if you wish

'The gift shall be used for the benefit of (service, hospital or other purpose as you nominate)'

We strongly recommend that you seek advice from a qualified legal advisor, experienced in estate planning.
